

F2: Spending time outdoors

F3: Using phones and smartwatches in bed before sleep

F4: Controlling and using ambient light before bedtime

F5: Using light in the morning and during daytime

Brightest 10h mean

Brightest 10h midpoint

Darkest 10h mean

Darkest 10h midpoint

Dose

Duration above 1000

Duration above 250 wake

Duration below 1 sleep

Duration below 10 pre-sleep

First timing above 250

Interdaily stability

Intradaily variability

Last timing above 250

Mder

Mean

Mean timing above 250

Period above 250

Metrics

p-values are fdr-corrected for n= 68 comparisons
